

Certificate – Haplogroup

Family Tree DNA certifies that a DNA sample from

Eerikki J. Lehmonen

Sample # 101974

was analyzed for Haplogroup determination using the Single Nucleotide Polymorphism test. The analysis shows that you are positive for the following SNPs: **M253+ P30+** ; and negative for the following SNPs: **M21- M227- P109- P259-** . According to the current classification, you have been assigned to:

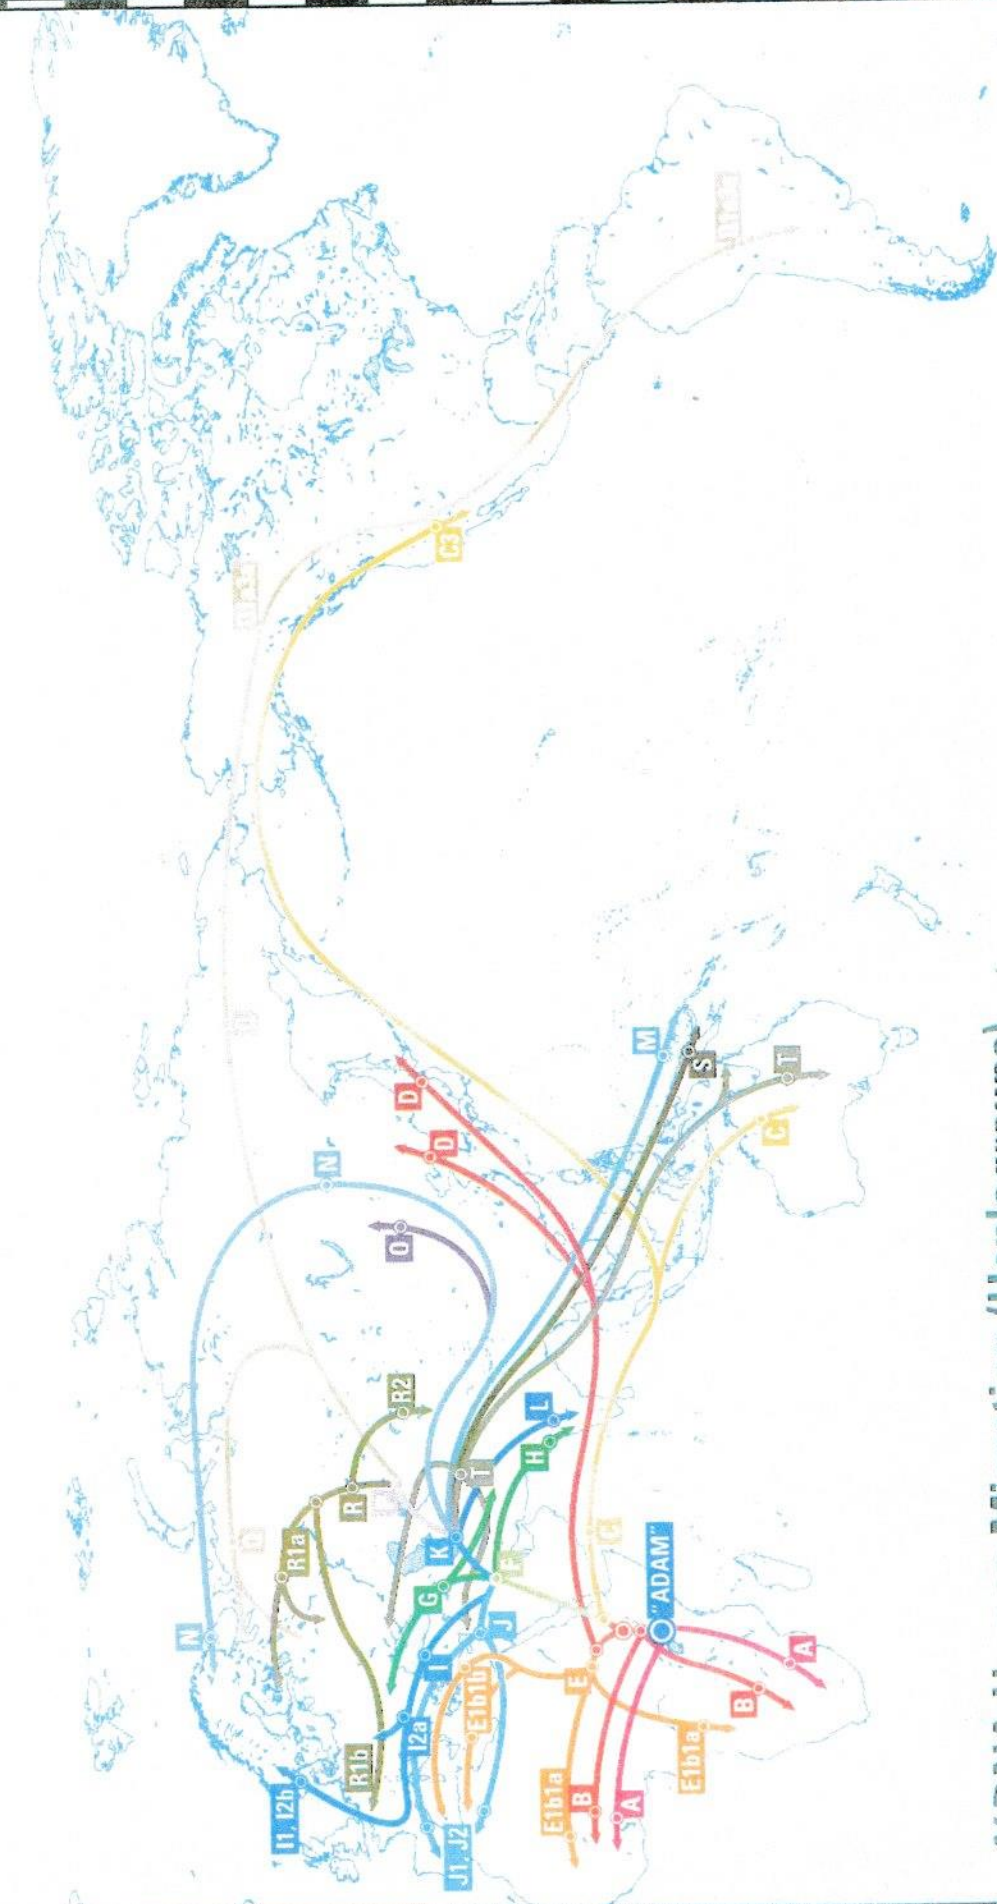

Haplogroup I1

I1: The I1 lineage likely has its roots in northern France. Today it is found most frequently within Viking / Scandinavian populations in northwest Europe and has since spread down into Central and Eastern Europe, where it is found at low frequencies.

January 9, 2009

The background is from the Lascaux Cave, a Paleolithic site discovered in 1940.
